# leva+

Digital, mobile, integrated & easy to use

With leva+ you optimise and accelerate your processes. The software solution for heavy lift logistics and equipment rental is modular and expandable - you only pay for what you really need.

> *The digital handover and return with automatic calculation of rental days and surcharges frees me from time-consuming routine tasks.*
>
> **Sascha Keller**
> Head of Lifting Platforms, Toggenburger + Co AG

Digital

Digitise and accelerate all work steps from order entry to scheduling to billing and align the individual steps with each other.

Integrated

Integrate leva+ seamlessly into your IT landscape, work with industry-specific modules or options and exchange data with third-party systems via interfaces.

Mobile

Digitise your processes without media breaks and access current data and documents in real time from your computer, smartphone or tablet, regardless of the device.

User-friendly

Beneath the intuitive and easy-to-understand user interface lies a well thought-out and future-proof software architecture, a modern design and innovative technologies.
